EXECUTIVE COURT REPORTERS, INC.

Based on that, my association in meeting

EXHIBIT 65 PAGE 3 OF 40

- those people at the Missouri and subsequently, that's
- 2 how I got on -- that's how I got the opportunity to
- 3 organize the sub ride.
- 4 EXAMINATION
- 5 BY MR. TYRRELL:
- 6 Q How does one go about actually organizing one
- 7 of these visits?
- 8 A Well, in my case, while we were there touring
- 9 the Missouri and having dinner with those people and
- 10 discussing the golf tournament, you know, I found out.
- I'm not sure exactly how I found out but I
- 12 found out that you could, in igos, visit either surface
- 13 ships or submarines and that there were civilians that
- 14 were allowed on these trips.
- 15 And so based on that, I said that would be
- 16 great. That would be an opportunity of a life time.
- 17 I'd love to work on that.
- is so, over the course of the year, when we
- 19 started the golf tournament and then when it was
- 20 canceled, you know, we just kept lebbying that we'd
- 21 like to be able to do this.
- 22 Q And who in the Navy would be --
- 23 A Well, in my case, that contact was Mickey
- 24 Nolan. Okay? His contact was Admiral Mackey.
- 25 Q Admiral Mackey?

EXHIBIT 65

Mackey so much as I've only met him twice. It was primarily Mickey Nolan initially and then I think he had discussions with Admiral Mackey. And Admiral Mackey, I'm told now, organized the trip. Q Okay. And Mr. Nolan lives in Honolulu? A That's correct. Q And so he was close to where A Well, he was involved in the golf tournament. On, okay. A And the golf fournament subsequently didn't go off for the reasons I stated. Q Okay. When you were planning the trip, did the Navy give any ch, I don't know - did they put any restrictions on it during the planning process? On what you could do and not do? Or, did they tell you anything about what types of things would be available during the trip? A No. What the Navy said, the Navy issued as a one or two-page letter, told you the kind of clothing to wear, what was allowed and what wasn't allowed. I'd have to find that piece of paper.	1	Λ But I didn't have direct contact with Admira

	24	Pictures couldn't be allowed unless the Captain

EXECUTIVE COURT REPORTERS, INC.

approved them. They wouldn't allow -- he had a certain

EXHIBIT 65
RAGE 5 OF 40

- 1 kind of clothing to wear.
- 2 They didn't -- it was a preferable type of
- 3 clothing to wear.
- 4 They stated that it was possible the
- 5 submarine may have to go on an active duty phase, and
- 6 you may have to be retrieved and sent back to port on a
- / surface ship, if the sub didn't come back on its
- 8 own, for instance.
- 9 And they wouldn't tell you whether that was
- 10 the case or not, I assume, for security. They wouldn't
- 11 want you to know whether the sub was going out or
- 12 coming back.
- And there was a, like I said, a one-page list
- 14 that kind of fald out all the different things.
- 15 Q if you can find that and you can send me a
- 16 copy, I'd be very appreciative.
- 17 A All right, sir, I'll look.
- 18 O All right.
- 19 A I may have it. I may not have it. But, 1'11
- 20 be happy to look.
- 21 Q Lappreciate it.
- 22 A But, that was in -- that was issued by the --
- 23 was it the subpack?
- 24 Q Right. Okay.
- 25 A T got that a week ahead of time.

EXHIBIT 65
PAGE 6 OF 40

- 2 the number of people in the group?
- 3 A No. Not as I regall, although I think we
- 4 were probably reaching their upper limits, that they
- b probably -- there was never actually any discussion of
- 6 how many could and how couldn't.
- In our group, we thought it was 14 going
- 8 originally, and I'm sure you're aware that the Clarys
- 9 were not part of our original group.
- 10 Q Right, Right. Well, when they knew that you
- Il had a group of fourteen, did the Navy comment in any
- 12 way about the number of people in the group?
- 13 A No, sir.
- 14 MR. TYRRELL: I was wondering now if you
- 15 could think back to the morning that you went on the
- 16 trip. And if you could just give me a running
- 17 narrative of what you did and what you saw, what you
- 18 heard throughout the day, starting with when you
- 19 arrived at the subbase in Pearl Harbor.
- 20 MR. HALL: We arrived at the sub-base full of
- 21 anticipation for an opportunity of a lifetime. We were
- 22 met by the Captain, the XO and the Chief in the boat,
- 23 and it was docked there in Pearl Harbor.
- 24 They explained to us that this would be a
- 25 great day and that they were going to do some training

FIXHIBIT 65 PAGE T OF 40

- I missions that day, and that they were happy to have us
- 2 abourd. And they wanted us to engage their crew in,
- 3 you know, don't just be -- be happy to talk to anybody
- 4 in the crew. The crew will talk to you.
- And it was going to be a nice day that day.
- 6 It was sunny when we left, actually. I don't think it
- / changed, the weather, changed later in the day,
- 8 although when you're in a submarine, you don't really
- 9 realize that, or you don't know.
- 10 MR. TYRRELL: That's true.
- 11 MR. HALL: But, it started out a nice, sunny
- 12 morning, at least when we went out.
- 13 We left -- we all came aboard, went down the
- 14 back hatch, went to the grew mess. And were briefed by
- 15 the Captain, the XO on what we could do and what we
- 16 couldn't do in the boat.
- 17 We had two junior officers but senior on the
- 18 boat that would lead tours. We broke us up into two
- 19 groups. And going out, they would lead tours.
- 20 Everybody had the opportunity I think that
- 21 wanted to to go up to the conning tower on the way out.
- 22 which was quite a thrill, actually. That's what you
- 23 really think about when you think about submarines is
- 24 that submarine going out and you're on the conning
- 25 tower.

EXHIBIT 65 PAGE 8 OF 40

- It was pretty impressive.
- 2 MR. TYRRELL: I'll bet it was.
- 3 MR. RALL: At any rate, we didn't go anywhere
- 4 on that boat but what you didn't have somebody with
- 5 you, an officer.
- And we went to, from a tour standpoint on the
- 7 way out, we went to everywhere they'd let us go. We
- 8 couldn't go anywhere after the crew mess because that's
- 9 where their propulsion system and engineering is.
- And so the crew mess, went to the officers'
- 11 ward room, saw the officers' quarters, the crew
- 12 quarters, saw the Lorpedo room. We saw the sonar room.
- 13 We saw the control room.
- 14 Those are the areas that we were allowed to
- 15 go.
- 16 MR. TYRRELL: Okav.
- MR. HALL: And during the day -- and as you
- 18 went to these different places, they had sailors there
- 19 who explained what they did.
- 20 And we had discussions. You were allowed to
- 27 ask any questions. In this one piece of paper that was
- 22 sent out by the military, or the Navy, it said that if
- 23 you asked a question and you don't get an answer, don't
- 24 be offended. It's just because they don't choose to
- 25 answer that question.

EXPLIENT 65
PAGE 9 OF 40

1	It either has something to do that's
2	classified or they don't care to have you know.
3	And that was prettly evident because as you
4	get to these different places and you ask questions
5	and, you know, if it was not something they wanted to
หั	tell you, instead of not answering, they just said, "!
7	can't answer that question."
8	1 must tell you, this Captain and the Officer
9	group and the crew was highly motivated, most very
10.	professional. Unbelievable you've got young guys
11	and you've got middle-aged guys and you've got even a
12	lew older guys. The older guys being probably not much
<u>i</u> 3	past forty. That's old for the military, I think.
14	But, really, a very professional group. Kind
15	of on point most of the time that I ever, I mean, in my
16	discussions with every one of them, they couldn't have
1.7	been nicer and more accommodating to us.
18	We they didn't, for instance, in the
19	control room, you couldn't look you know, they
20	didn't want you dealing with they would just give
21	you parameters as far as saying how last they could go,
22	how deep they could go.
23	They would say, for instance, "not more than
24	800 feet" or "not faster than twenty knots."
25	You know, you get the impression they could

- SENT BY: NAVY JAG

EXECUTIVE COURT REPORTERS, INC.

EXELECT <u>65</u> PAGE <u>10</u> 07 40

11

. SENT BY: NAVY JAG ; 703 614 7420; MAR-16 5:08; PAGE

do more than that but they're not going to tell you

- 2 that.
- 3 So they were very informative as they went
- 4 about their business. It was always business first but
- 5 they were very informative. If you asked a question,
- 6 They would do their best to answer it:
- And the tour was, you know, quite frankly,
- 8 the tours were fairly easy. I mean a submarine is a
- 9 very tight place.
- 10 Have you been in a submarine?
- 11 MR. TYRRELL: Yes. I have.
- 12 MR. HALL: You know, when you go, you know,
- 13 and the sailors are always moving around doing all
- 14 kinds of things. They're always going about their
- 15 business. You know, and as you go through a passage,
- 16 you have to turn sideways to get through them.
- 17 MR. TYRRELL: Right.
- MR. HALL: I mean it is by its nature a
- 19 tight, compact place.
- 29 MR. TYRRELL: When you were going on the
- 21 tour, was that about the time that the submarine first
- 22 submerged?
- 23 MR. HALL: That's correct. I mean as it was -
- 24 going out. Remember, I said we got in the crew's mess
- 25 and they said:

EXECUTIVE COURT REPORTERS, INC.

--	------------------	-----------------	----------	----------------	------

	·
1	"Well, we're going to divide you up into two
2	groups and you each have an officer and he'll take you
3	around to the different stations. And you'll discuss
i	in each different station with the seaman or officers
5	who are there," which is what they did.
6	So we had an escort, a babygiller, if you
7	like. And as we went to each one of these stations,
8	whoever was on station or on watch, if you had
9	questions, they'd answer them.
10	MR. TYRRELL: Were you in the control room
11	when they submerged?
12	MR. HALL: No, I was actually on the conning
13	tower. I was one of the last ones to come down.
11	MR. TYRRELL: Oh, okay.
15	MR. HALL: I don't think I was with the last
16	group but I was one of the last. I was in the crew
17	mess probably when we submerged because I came down and
18	went straight to the grew
19	MR. TYRRELL: I see. I see. When you went
20	into the sonar room, can you describe for me what you
21	did there?
22	When you went into the sonar room, can you
23	describe for me what you did there and how long you

24 were there, and what they said to you?
25 MR. HALL: Probably, Live to ten minutes. 1
EXECUTIVE COURT REPORTERS, INC.

:09;

1	don't	know.	Il's	hard	to	relate	to	time	when	you're
---	-------	-------	------	------	----	--------	----	------	------	--------

- 2 down there because, one, you're anticipating learning
- 3 new stuff and this is a neat deal.
- 4 There were four men in the sonar room at
- 5 screens and one man sitting standing behind them.
- 6 It was dark in that they were either I
- 7 don't remember if they were running -- what color
- 8 lights they were running, but I don't think they were -
- 9 it might have been a blue light, kind of.
- And they explained to you how the sonar
- 11 works. Pretty dull to me but I sit there and listen to
- 12 that.
- MR. TYRRELL: (Laughing).
- MR. MALL: But, I mean they explain it and
- 15 you watch it and I mean I don't know that I could sit
- 16 there for six hours on a watch and do what they do.
- U/ MR. TYRREDL: Right.
- MR. HALL: But, then they also had some tapes
- 19 of going out, that the whales that they put in, and
- 20 say, "All right, here's what a whale sounds like."
- 21 They actually had some tapes that would give
- 22 you different sounds because I don't think there was
- 23 much in the area to listen to on the existing sonar.
- 24 MR. TYRRELL: I see.
- 25 MR. HALL: So they explained that. And I

EXECUTIVE COURT REPORTERS, INC.

13 OF 40

-] 4
- don't think we stayed in the sonar room all that long.
- 2 MR. TYRRELL: How many people were in your
- 3 group after they split you up?
- 4 MR. HALL: Well, uh, six or seven.
- 5 MR. TYRRELL: Were you all in the sonar room
- 6 together?
- 7 MR. HALL: No. You passed through. You
- 8 know, because the hallways, you can't put seven people
- 9 in one of these little rooms like that at one time, in
- 10 the sonar room. It isn't big enough to put seven in
- 11 there.
- 12 MR. TYRRELL: Okay.
- 13 MR. HALL: So the first three or four go in
- 14 there. And then they, as they move on to the next
- 15 area, then the next three or four come in there.
- 16 MR. TYRRELL: When you go into the control
- 17 room after the submarine was submerged, did they darken
- the room, or did it have regular ambient light?
- I mean, not ambient light but --
- 20 MR. HALL: The first time T was in the
- 21 control room, it was not dark.
- 22 MR. TYRRELL: It was not dark. Okay.
- 23 MR. HALL: and I'm not sure I ever recall it
- 24 being dark. I recall the sonar room being dark but 1
- 25 don't recall the control room being dark.

> MR. TYRRELL: Okay. It just occurred to me. 7

2 I've talked to ten of the quests and I never asked

- them whether the lights were on (laughing). 3
- MR. HALL: No, I don't recall it being dark, 4
- 5 to be frank with you.
- ő MR. TYRRELL: Okay. Now I understand that it
- wasn't until after funch that they started putting the 7
- submarine through these training maneuvers? 8
- Q MR. HALL: I Think that's probably true. We
- had hunch at a pretty good depth. And I know at that 10
- 11 depth they wanted to retrieve some water from the
- torpodo tubos bocause we all got a bottle of water 12
- 13 tested to a certain depth.
- And I think we had lunch and then I think we 14
- started to do the different maneuvers. 15
- 16 MR. TYRRELL: Okay. Can you describe for me
- how the maneuvers -- what maneuvers were executed and 17
- where the quests were, and that sort of thing? 18
- MR. HALL: Well, you know, during the day, as 19
- 20 you took these tours, you got an opportunity to either
- 21 be explained to or try certain things.
- 2.2 MR. TYRRELL: Right.
- 23 MR. HALL: Early on, I think everybody who
- wanted to got an opportunity to sit at one of the 24
- controls. Okay? 25

---	-----	---	----------	--------	----	------	---------	-----	------

- 2 didn't look that interesting to me to sit there and
- 3 look at a dial and hold on to, you know, a steering
- 4 wheel. Okay?

- SENT BY: NAVY JAG

- 5 MR. TYRREIJ: Right.
- 6 MR. HALL: Because all you're really doing is
- Tooking at a dial and a man sits, you know, a Chief
- 8 sits behind you who actually -- sec, I understand
- 9 something about airplanes.
- 10 So what they try to do is trim this sub up
- If the same way you trim an airplane up so that an
- 12 airplane goes through the air, a submarine goes through
- 13 the water with the least resistance.
- 14 MR. TYRRELL: Right.
- 15 MR. HALL: And it's not just one guy who
- 16 controls this. It's quite a few people who have to be
- in sink in order to make the sub go through that water
- 18 and do the things it needs to do as efficiently as it
- 19 needs to do it.
- 20 MR. TYRRELL: Okav.
- 21 MR. HALL: I didn't actually ever sit at the
- 22 controls because it just didn't look that appealing to
- 23 me. But, I think most people in our party at one time:
- 24 or another, early on before lunch, had the opportunity
- 25 to do that.

EXECUTIVE COURT REPORTERS, INC.

EXHIBIT 65 40 MAGE 16 OF 40

	MR.	TYRRELL:	Okay.
--	-----	----------	-------

- 2 MR. HALL: When we started after lunch and we
- started the certain different maneuvers, I know we did 3
- 4 some -- he went into some high-speed maneuvers. And I
- don't know that I really understand what he actually
- 6 did other than I know we did some banking at 15, 20 or
- 7 25 degrees on both ways. I know he did some high-speed
- turns underwater.

- SENT BY: NAVY JAG

- 9 And then we did this emergency blow down to
- 10 the top. And then we were headed home. Except we
- 11 didn't head home.
- 12 MR. TYRRELL: Do you remember when they went
- 13 to periscope depth?
- 14 MR. HALL: I do.
- 15 MR. TYRRELL: Can you describe that process
- 16 and where you were? Where everybody clse was, it you
- 17 can remember?
- 18 MR. HALL: I can't describe where everybody
- 19 else was. I can pretty -- I can describe where I was.
- 20 MR. TYRRETAL All right.
- 21 MR. HALL: After we had done these maneuvers,
- 22 banking maneuvers and high-speed turns -- because they
- were at a pretty good depth when he did that -- he then 23
- said, "We're going to do this emergency blow-down." 24
- 25 And then he asked me if I'd like the honor of

EXECUTIVE COURT REPORTERS, INC.

PAGE 17 00 40

- l pulling the two levers for 'balance' picture. And then
- 2 so I'm in the left in the . have you been in the
- 3 control room?
- 4 MR. TYRRELL: Yes.
- 5 MR. HALL: Okay, so you know you have the two
- 6 steering columns and the Chief sits behind the two
- 7 steering columns, right?
- 8 MR. TYRRELL: Right.
- 9 MR. HALL: And to the left of that is where
- 10 another seamen does -- there's numbers and gauges there
- Il and switches and things. And that's where I was, to
- 12 the left of those.
- 13 I think T was up kind of towards the side of
- 14 the wall 90 degrees from those two driving positions,
- 15 are these two valves.
- And they're kind of high up on the panel.
- 17 So, when he told me to do that, I moved over
- 18 and mot this particular seaman and he started
- 19 explaining to me how this drill was going to go.
- 20 And he did it about three times because I
- 21 want to make sure that it wasn't going to be any kind
- 22 of screw-up. I wanted to make sure I can do what I was
- 23 supposed to do.
- 24 And while he was explaining that to me,
- 25 everybody else was kind of getting organized, meaning

EXHIBIT 65 PAGE 18 OF 40

- 1 the crew, the captain.
- I mean, I wasn't paying a whole lot of
- 3 attention to what was going on other than, okay, my job
- 4 is going to be this. You know, you're going to hear
- 5 three bells. And when you do that, you'll pull these -
- 6 they unlock these two levers. You pull them down.
- 7 You have to count out loud for ten seconds. And then
- 8 you push them back up and lock them back into place.
- 9 And then you sit down. That was my
- 10 instructions. Okay?
- 11 MR. TYRRELL: Okay.
- 12 MR. HALL: So we go to periscope depth.
- 13 There is an Officer of the Watch. It happened to be a
- 14 guy named Cohen, a younger guy, a young JG, I think.
- And he makes a couple of turns. Doesn't say
- 16 a whole lot. Makes a couple of turns on the
- 17 periscopes. And the Captain says, "I want to see."
- 18 And he steps up and he takes a couple of
- 19 turns.
- 20 And he actually asks the periscope to go up
- 21 two feet. He just said, "Up two," is what his words
- 22 were, as I recall.
- 23 And then he took a couple of more turns.
- Now there are flat screens in there but where
- 25 I sit, you don't really see them because I'm all the

FAGE 19 05 40

- way to the left side of the submarine and I'm, you 1
- 2 know, right there where all those switches, gauges and
- dials are. 3

. SENT BY: NAVY JAG

- And, you know, you've got, well, you just 4
- don't see it because they're not readily easy for you 5
- to see at that point where you sit there. 6
- 7 But, you know, everybody else in our group --
- I won't speculate, but everybody else in our groups 8
- 9 says "You can't see anything on those flat screens."
- I mean, you know, whatever they see in the 1 ()
- 11 periscope, you see.
- MR. TYRRELL: Okay. 12
- MR. HALL: So then we go sec -- I believe he 1.3
- said "Lot's go to 400." And so -- and the sub actually 14
- goes down there quite quickly. I'm amazed at how this 15
- big, mammoth thing moves pretty quick. 16
- 17 He goes to 400. He ran through a whole bunch
- of checks, me and the sailors, talking back to him. 18
- Him agreeing or just, you know, acknowledging them. 19
- 20 And then we started this procedure and there
- were three bells, boom, boom, boom. And then the 21
- sailor next to me said, "Okay." And I pulled these Lwo 22
- levers out and I counted out loud to ten -- "A thousand 23
- one, thousand two, thousand three." 24
- I really had to kind of yell it out. Put the 25 EXECUTIVE COURT REPORTERS, INC.

- 1 two levers back in. The seaman said, "Sit down." And
- 2 I sat down. And that submarine then began to rise very
- 3 quickly.
- 4 MR. TYRRELL: Okay. And can you carry on
- 5 with the narrative of what happened next?
- 6 MR. HAJA: Well, that submarine dame out of
- 7 that water prefity quick. You don't have any windows
- 8 obviously so you can't see. But, the sensation for me
- 9 was, you know, you don't know when you're out of the
- 10 water until you start to feel that submarine fall
- 11 forward.
- And, you know, the analogy I gave the other
- 13 day was like in an airliner when it lands, then the
- 14 nose comes down and hits the runway.
- MR. TYRRELL: Right.
- MR. HALL: Well, it's the same way in that
- 17 sub. You know you're out of the water coming down
- 18 because you can feel it starting to -- the sensation of
- 19 It going forward, you know.
- 20 And about the time we had just started that
- 21 sensation to come down, there was a loud bung, a loud
- 22 noise. And the submarine shuddered, meaning it got
- 23 shook.
- 24 And, wh, al-that point, the Captain, he said,
- 25 "Jesus, what the hell was that?"

EXHIBIT 65

- 2 kind of -- stunned is not the word because we don't
- 3 know. I mean wo'd never done this before.
- 4 But, you know something wasn't right,
- 5 especially when he said that. And he immediately
- 6 turned and got on the periscope.
- 7 And it wasn't but a few seconds later that he
- 8 says, "We have hit the ship." And he named it. So he
- 9 must have been able to see the stern clearly in the
- 10 periscope.
- And he said, "Would my guests go immediately
- 12 to the drow mess?"
- 13 And everybody just started getting out of
- 14 there. And the crew moss is not very -- it's down one
- 15 deck. But, you have to go forward about six, eight,
- 16 ten (eet and you hit a stairwell and you go down that
- 17 stairwell. And you come back, you know, ten feet and
- 18 you're in the crew mess.
- 19 So we didn't take long to get to the crew
- 20 mess. And when we got to the -- I was one of the -- I
- 21 was about probably the third or fourth person down to
- 22 the crew mess.
- 23 And there is a big, flat screen in the crew
- 24 mess. And when you went in there, you could actually
- 25 see the ship. And it was, by my estimations, I didn't

- 1 think the ship was very big because it didn't -- there
- 2 wasn't a whole lot of it in the water, up sticking
- 3 above the water.
- 4 If I had to guers -- and I'm not going to
- 5 guess, but that ship didn't look very big to me. But,
- δ you could clearly see it was a ship. '
- 7 I didn't see any life rafts. I didn't see
- 8 anything like that. But, you could see the ship. And
- 9 so, obviously, the periscope was following the ship
- 10 because -- and we woron't in the crew mess twenty
- Il seconds as a group once we all got there, when the
- 12 seaman said:
- 13 "We need to move you to the torpedo room. We
- 14 need to convert this mess over to a first aid station."
- 15 MR. TYRRELL: Okay.
- MR. HALL: So, two seamen led us all down to
- 17 the torpedo room. And that's on the same -- that's on
- 18 The same level as the crew mess. So you just have to
- 19 go forward.
- And it didn't take long to get us in there.
- 21 And, of course, we're all kind of shook because now all
- 22 of us as a group are standing in the torpedo room. And
- 23 guys are going back and forth at a fast pace,
- 24 hurriedly. Grabbing all kinds of stuff.
- 25 And a lot of things were stored in the

- 1 torpedo room. There's extra room there -- a lot of
- 2 first aid, a lot of ropes, rope ladder gaffs, and that
- 3 kind of thing.
- 4 And we actually helped thom. The paffs are
- 5 all lashed down so I helped them unlash some gaffs. We
- 6 helped to pass some ropes over. We helped to pass a
- 7 ladder over because they had to crawl up on where the
- 8 torpedoes sit on a rack.
- And on the rack in-between there were no
- 10 torpodoes. So that whole rack was kind of barren.
- 1) But, down in-between there, you had to draw! up on top
- 12 of the rack to get that stuff out.
- 13 MR. TYRRELL: I see.
- 14 MR. HALL: So we helped to pass it but. And,
- 15 periodically, officers would come and go and tell us
- 16 what's going on. Plus, we can hear everything on the
- 17 intercom.
- 18 MR. TYRRELL: Can you toll me some of the
- 19 things that you heard over the intercom?
- 20 MR. HALL: Yes. I heard the captain come
- 21 over the intercom not very long after this happened and
- 22 we got in the torpedo room. He told his crow that they
- 23 were trained to -- that there had been this accident
- 24 occurred, we had hit the ship and there were life boats
- 25 in the water and people in the life boats.

END 24 OF 40

1	He didn't see anybody in the water that
2	wasn't in a life boat. And they were trained for this,
3	to render assistance and for the crew to, even though
4	the adrenalin is pumping, to slow down, think what
5	they're doing it and do it the proper way.
6	I remember him saying that. The then said
7	there were a lot of announcements, some by him, some by
8	other crew officers, obviously.
9	There was some discussion. They evidently
10	and this is a little bit of speculation on my part.
11	But, we were sitting down in the torpodo room and we
12	can't see anything or do anything, and only what we
13	hear.
14	I think they had, whoever was in the conning
15	tower was trying to communicate with whoever was in the
16	life boat. They couldn't communicate. They didn't
1 7	know whether they were Japanese or Chinese to begin
18.	with because the word came down:
19	"Does anybody speak Japanese or Chinese?"
20	Because they didn't know. And whoever was in those
21	life boats didn't speak any English.
22	So you find out later the captain is one of
23	those life boats and he didn't speak any English.
24	And I think then there was a discussion over
25	that as they come down that they couldn't before I

26

- SENT BY: NAVY JAG

1 left the crew mess, which I hadn't been in there

- 2 twenty, thirty seconds -- maybe a minute at the most,
- 3 but it was about 20 plus seconds before we all got
- down. And we couldn't have all been there 20 seconds 4
- 5 before they herded us out as a group.
- But, it took, you know, a good minute, minute 6
- 7 and a half to got everybody down there.
- 3 There was a diver ready to go -- if you go
- 9 past the officer's mess going aft, that's where the
- 10 hatch is, about six to eight, ton feet.
- 11 I mean, not the officer but the crew mess.
- That's where the hatch is. That's the hatch we came in 12
- and out of. 13
- And when we boarded and it was the hatch we 14
- went out when we disembacked. 15
- And they had a diver there ready to go. 16
- ; 7 MR. TYRRELL: He was all decked out in the
- 18 scuba equipment?
- MR. HALL: He was ready to go. Bul. they 19
- 20 couldn't, you know, they couldn't launch him because
- the seas were just too rough. If they'd opened that 21
- hatch, they would have taken on water. 22
- MR. TYRRELL: Did they make an announcement -23
- 24 to that effect?
- 25 MR. HALL: Yes, they did make an

EXECUTIVE COURT REPORTERS, INC.

EAGE 26 OF

SENT BY: NAVY JAG , 103 014 7420, MART-10- 3.12,

announcement, said, "You know, it's better if we just, 1 2 you know, follow these life boats around and make sure that we've rendered assistance." 3 1 See, they nover saw anybody in the water who wasn't already in the life boat. And they said: 5 6 "We'd just better follow them around until we 7 get Coast Guard on here, or we're going to have bigger 8 problems getting people trying to disembark them from 9 life rafks and try to put them on the boat." 10 They were all about trying to figure out how 11 to render assistance. They had the messes set up for 12 emergencies. They had all the first aid kits laid out. 13 The reason I know all this is when we actually came back to the crew mess, their stuff was 14 everywhere. And they had to then start putting it back 15 16 to make room in the crew mess. 17 I didn't see what they did in the ward room, but we were told earlier the ward room can be set up 18 for an operating room. They obviously didn't need it. 19 But, I think they tried to -- they had a big 20 rope ladder. I think they tried to put it over the 21

23 MR. TYRRELL: I see.

22

24 MR. HALL: So they felt they couldn't

conning tower, and it was just a problem.

25 properly take the people out of the life boats without

- 1 getting them hurt more. And it was better off to just-
- 2 - pardon me?
- 3 MR. TYRRELL: Oh, I'm sorry. I had to clear
- my throat.
- 5 MR. HALL: I think they thought it was better
- 6 just to follow them around the submarine and keep track
- of everybody until the Coast Guard got there.
- 8 MR. TYRRELL: Okay.
- 9 MR. HALL: But they were all about, if they
- could, rendering assistance. 10
- 11 Now had this been somewhere else and they
- weren't relatively close to shore, I... 12
- 13 (BEGIN TAPE 8, SIDE B:)
- 74 MR. TYRRELL: When you say the seas were
- 15 washing over the boat, you're saying they were washing
- 16 over the submarine?
- 17 MR. HALL: Yes. You see that when you see
- all the pictures here. 18
- 19 MR. TYRRELL: Okay.
- 20 MR. HALL: I couldn't tell it then but I see
- 21 all the, you know, they show these submarines every
- 22 damned day. And all you have to do is see and the
- 23 water washes right over the top of them.
- 24 MR. TYRREId: You're talking about the Cilm
- 25 they're showing on television?

EXHBIT 65 PAGE **28** OF 40

MR. HALL: Yes. Yes. Yes. You can see it.

MAR-IO- .DIIZ,

2 wash over.

SENT BY: NAVY JAG

- 3 MR. TYRRELL: Right.
- 4 MR. HATL: And that hatch is right aft of the
- 5 conning tower.
- 6 MR. TYRRELL: Right.
- 7 MR. HALL: About ten feet, maybe.
- 8 MR. TYRRELL: Could you tell me something
- 9 about, if I could take you back to when you were in the
- 10 control room when they were -- after lunch.
- 11 Can you tell me if people were moving about?
- 12 MR. HALL: During these maneuvers?
- MR. TYRRELL: Yes.
- 14 MR. HALL: I think you picked a spot that you
- 15 weren't in anybody's way but, yet, you could hang on to
- 16 something.
- MR. TYRRELL: Okay.
- 18 MR. HALL: Because, you know, on these
- 19 maneuvers, you went at these angles. You did have to
- 20 hang on.
- 27 MR. TYRRELL: But, you weren't told to stand
- 22 in a particular place? You picked a convenient spot?
- 23 Everybody?
- MR. HALL: Well, the Captain was right in
- 25 front of the periscope and there's a console. In my

- 1 particular case, there was a little jumpseat in front
- 2 of that console and I sat on that jumpseat.
- 3 And so everybody basically was behind me.
- But, earlier in the day -- there's plenty of room in 4
- 5 that control room.
- I mean it's tight but there's plenty of room. 6
- 7 I don't think I ever -- I don't think anybody had a
- 8 problem with enough room or places to stay and stand in
- 9 where you can see everything in addition to the seamen
- that were on duty there. 10
- MR. TYRRELL: Was there a lot of talking 11
- 12 going on in the control room?
- MR. HALL: I don't think so. You know, 13
- you're anticipating -- first of all, you don't know 14
- 15 what to say. And you're anticipating hearing what they
- 16 say. You want to hear what they say.
- 17 So I don't -- I don't recall any talking.
- MR. TYRRELL: | understand that there was --18
- I think his name was Captain Huger? He was like a tour 19
- 20 quide? is that correct?
- MR. HALL: He wasn't a tour guide. He was 21
- the Chief of Staff for the Admiral of the submarine. 22.
- 23 MR. TYRRELL: Right.
- MR. HALL: And he was aboard as our liaison. 24
- MR. TYRRELL: Did he help arrange for the 25

31

		t.?

- SENT BY: NAVY JAG

- 2 MR. HALL: Not that 1'm aware of.
- 3 MR. TYRRELL: Is it normal -- you probably
- 4 wouldn't know the answer to that.
- Well, did he say that it was normal to have
- 6 such a high-ranking officer accompany a tour?
- 7 MR. HALL: Well, he's I won't say only a full
- 8 bird colonel, but he is a full bird colonel. You know,
- 9 that I would consider that high-ranking.
- 10 He is a former submarine commander. Why he
- 11 was there, I don't know. But I think they do probably
- 12 send a representative out when they take those tours.
- 13 I mean I assume that. I don't know that for sure.
- 14 MR. TYRRELL: Okay, but he hadn't been a
- 15 point of contact before?
- 16 MR. HALL: I never met him until that
- 17 morning.
- 18 MR. TYRRELL: Or talked to him on the phone?
- 19 MR. HALL: I never talked to him on the phone
- 20 until that morning.
- 21 MR. TYRRELL: Okay. All right:
- 22 MR. HALL: Nice guy. He was most of the time
- 23 after this accident happened, and a lot of times, he
- 24 was the individual that would come and back to the
- 25 torpedo room and try to hell us what was going on.

EXECUTIVE COURT REPORTERS, INC.

PAGE 31 OF 40

]	I think they were concerned after this
2	accident happened that we were okay emotionally because
ij	they kept he kept coming back and forth and saying,
4	"Is everybody all right? Anything 1 can get you?" You
5	know.
6	And then he would tell us what he knew.
7	Because there was some what I didn't tell you, the
8	one scenario, is when we were down that torpedo room,
9	there was at one point that come across and I assume
10	this is when the Coast Guard got on station that
11	somehow somebody must have communicated with the grow
12	because there was word come down one time that:
1.3	"It looks like everybody who was on the ship
14	got, out, and they're in lifeboats."
.15	And we were all elated and happy. And then
3.6	it couldn't have been ton minutes more and they come
17	back and said:
18	"No, there was thirty-five on board, there's
19	only twenty-six in the lifeboat. We're missing nine."
2.0	And you just went right to, you know, your
21	emotions went straight down to the bottom them.
2.2	MR. TYRRELL: Right.
23	MR. HALL: So it was kind of a moller-coaster
. 24	ride in that regard for emotions.
25	We were, you know, in the when they were

5:13;

- 1 trying to render assistance, we were basically totally
- 2 out of the way once we got to that torpodo room.
- 3 We later moved back into the officers ward
- 4 room. As a group, we all sat in there. And pretty
- 5 much out of the way of everybody, as a group, which was
- 6 more comfortable for us because that forpedo room,
- 7 basically, you're standing in an aisle.
- B There's not many places to sit down or get
- 9 off your feet, you know.
- 10 MR. TYRRELL: Right. Okay, Is there
- 11 anything clse that we haven't discussed that you think
- 72 T should know about?
- 13 MR. HALL: Well, I was trying to think.
- 14 Oh... no. 1'm sure 1'll think of something when 1'm
- 15 not talking to you.
- 16 MR. TYRRELL: Well, if you do think of
- 17 something and it's important, 1'd appreciate it if you
- 18 would give me a call.
- 19 MR. HALL: I could tell you that the Captain
- 20 came back and talked to us when we were in the ward
- 21 room for five minutes maybe -- 1 won't say ten. Five
- 22 minutes.
- 23 He told us that the accident happened and
- 24 that, you know, we were rendering assistance. I don't
- 25 think he came and talked to us until all the Japanese

PAGE 35/41

- 1 had been taken out of life raft and taken back by the
- 2 Coast Guard.
- 3 Then came on and said, "We're determining
- 4 whether we'll stay on site."
- 5 Because at that point, you know, we figured
- 6 we'd be heading back in. I think that's when he came
- 7 and told us that they were going to need to stay out
- 8 there and assist in the search and rescue.
- 9 It didn't make all our people too happy.
- 10 But, you know, this is a situation. You make the best
- 11 of it and do what you have to do.
- 12 MR. TYRRELL: Right.
- MR. HALL: So, as a group, we pretty well
- 14 stayed in the officers ward room. They fed us. I mean
- 15 there wasn't much for us to do. We just played cards.
- 16 And, later on, they found an area for us to
- 17 get in the bunks. But that submarine popping around
- 18 like a cork on the water was not real comfortable.
- 19 MR. TYRRELL: T'll bet.
- 20 MR. HALL: Because it's not made to do that.
- 21 MR. TYRRELL: Right.
- 22 MR. HALL: Those seas are rough enough. You
- 23 know, at that point, the people who hadn't taken any
- 24 seasickness tablets, we all took them because we
- 25 thought we were going to be popping around there for a **EXECUTIVE COURT REPORTERS, INC.**

35

1 long Lime.

- 2 MR. TYRRELL: Did the Captain ever say why
- 3 the accident happened? Did he give any kind of
- 4 explanation to you?
- 5 MR. HALL: No.
- б MR. TYRRELL: No?
- 7 MR. HALL: He did -- he did -- that morning
- 8 on our way in, which is 8:30 or 9 o'clock in the
- 9 morning, I remember him coming into the, because lew of
- us, we all stayed up as late as we could. 10
- 11 I mean time goes really slow in a situation
- 12 like that. You're all in a small room and there's not
- much you can do and there was a point where he came in 13
- 14 that morning, that Saturday morning, and said:
- 15 "Liston, this is an international incident.
- 16 it's a tragedy and I don't know what's going to happen
- 17 here. But, I will tell you that you need to just tell
- 18 the truth, not embellish the truth. If you don't know
- 10 something, don't say something or don't think what you
- 20 think happened. Only say what you saw and what
- actually happened. And, tell the truth." 21
- 22 He said he'd enjoyed having us on. I mean he
- couldn't have been more professional, quite frankly. 23
- 24 He couldn't have been more nice and accommodating. 4
- 25 mean he had unbelievable gricf and sorrow. You could

i see it	7	e it.
----------	---	-------

2 He was, you know, and the crew took on a

; 703 614 7420;

- 3 demeanor of being shook up, Loo. They went about their
- business but nobody -- they didn't talk about it. I 1
- 5 mean they were all -- they all knew that this was going
- 6 to be some kind of major problem.
- 7 And that morning, I had breaklast and I sat
- in the crews mess with the Chief and he said: 8
- () "You know, I am still pinching myself. I
- don't believe this happened. I don't believe we hit 10
- that -- I don't believe this happened." 11
- 12 The crew just couldn't believe this actually
- 13 happened.
- 14 MR. TYRRELL: Did any of the crew that you
- talked to make any comment about why it happened? 15
- 16 MR. HALL: No. 1 don't think there was
- 17 anybody even made a -- there was not discussion, at
- least amongst us or around us. I don't know what they 18
- 19 did amongst themselves.
- 20 But I can tell you we had an officer with us
- 21 the whole time, even when we were in the ward room.
- 22 We weren't there sitting there by ourselves.
- 23 We had a young officer the entire time. Our
- 24 babysitter, basically, is all.
- And he couldn't have been more accommodating, 25

- l a nice guy. But, you know, they all knew that this is
- 2 not supposed to happen. Okay?
- 3 MR. TYRRELL: Right.
- 4 MR. HALL: And of course they're in the Navy.
- 5 They understand these things a lot more than we
- 6 understood.

SENT BY: NAVY JAG

- It's the last thing we expected to happen. I
- 8 can assure you of that.
- 9 MR. TYRRELL: We had received a report from
- 10 somebody that alcohol had been served to the guests on
- 11 the submarine. Can you --?
- MR. HALL: 1 wish.
- 13 MR. TYRRELL: (Laughing).
- MR. HALL: I could tell you that issue came
- 15 up when we were sitting in the ward room there after
- 16 about four or five hours. And, God, could we use a
- 17 drink.
- 18 And I remember asking this officer babysitter
- 19 and he said, "There's no alcohol on board this ship.
- 20 Not allowed."
- 21 There was no alcohol -- of any type. But,
- 22 boy, could we have used a drink after sitting in that
- 23 ward room for hours.
- 24 Because I remember us all kind of saying,
- 25 "Could we have a drink?" Because we were playing

EXECUTIVE COURT REPORTERS, INC.

1 cards. And, well, that's absolutely false.

; 703 614 7420;

- 2 MR. TYRRELL: All right, then. I think we've
- 3 covered everything. And I really appreciate you
- 4 getting up early to talk to me today.
- 5 MR. HATT: Well, that's fine. I gave -- did
- 5 Mr. Clary call you yesterday?
- 7 MR. TYRRELL: No, I haven't ---
- MR. HALL: He talked to me yesterday and I 8
- 9 told him you were trying to get a hold of him.
- 10 MR. TYRRELL: Right.
- 11 MR. HAbb: I gave him your number.
- 12 He said that he was driving through
- 13 Washington today. You'll probably get a call from him
- 11 today.
- 15 MR. TYRRELL: Great.
- 16 MR. HALL: I think he's headed home.
- And his phone docsn't work real well because 17
- it's getting jammed. And I gave him your number, and 18
- 19 I'm sure he's going to call you.
- MR. TYRRELL: That would be great because ? 20
- 21 was calling him yesterday.
- 22 MR. HALL: You won't get through.
- 23 MR. TYRRELL: No, it was just continually
- 24 busy, you know, every time I called.
- 25 MR. HALL: He said it's broke, basically.

- 1 MR. TYRRELL: I thought maybe he had taken
- 2 the phone off the hook, you know.
- 3 MR. HALT: He's not home. He was in Florida
- 4 and he was driving to -- I think he lives in
- 5 Massachusetts.
- 6 MR. TYRRELL: Oh, okay.
- 7 MR. HALL: But, I did give him your name and
- 8 number and told him you were trying to get a hold of
- 9 him.
- MR. TYRRELL: Well, I appreciate that.
- Het me give you my mailing address so that if
- 12 you find that letter from the Navy, you'l! be able to
- 13 mail a copy to me.
- MR. HALL: Yes, sir.
- MR. TYRRELL: It's the National
- 16 Transportation Sulety Board, Office of Marine Safety,
- 17 490 L'Enfant Plaza East, Washington, D.C. Zip code
- 18 20594.
- 19 MR. HAT.T.: Okay.
- 20 MR. TYRRELL: And I really appreciate it.
- 21 MR. HALL: I'll look for it.
- 22 MR. TYRRELL: Okay. Well once again, thank
- 23 you very much.
- MR. HALL: Thank you, sir.
- MR. TYRRELL: All right, bye-bye.
